For Immediate Release

COMPLIANCE WORLDWIDE RENEWS SCOPE OF ACCREDITATION

January 30, 2009. Compliance Worldwide, Inc. completed a renewal of their scope of accreditation under ISO Guide 17025-2005 covering over 200 standards in the areas of Wireless, Industrial, Scientific, and Medical (ISM) Equipment; Information Technology Equipment (ITE); Household Appliances; Portable Tools; Medical Equipment; Telecommunications Equipment; IT Equipment; Electronic (Digital) Products; and Home and Professional Audio and Video Broadcast Receiving Equipment and associated devices.

The state of the art measurement facility includes an Indoor 10 meter Open Area Test Site containing a motorized antenna mast and a 2000 lb. capacity 10' diameter turntable.

The facility also contains a 12' x 20' x 10' ferrite tile chamber with a low profile remotely controlled turntable for pre-scanning products to Electromagnetic Compatibility (EMC) standards and meets the uniform field requirements of EN 61000-4-3. The radiated susceptibility (immunity) equipment can generate fields up to 20 Volts / meter from 80 MHz to 1 GHz, 10 Volts / meter from 1 to 2 GHz and 3 Volts / meter from 2.0 to 2.7 GHz.

A motor generator provides 230 VAC at 50 Hz up to 25 Amps for powering products per European and International specifications and newly installed 3 Phase 208 VAC, 60 Hz Delta Configuration 30 Amp per Phase service for larger equipment.

A complete copy of Compliance Worldwide's new scope can be found on our web site at www.complianceworldwide.com/cw-a2la-2010.pdf or on A2LA's web site at <http://www.a2la.org/scopepdf/1673-01.pdf>
